WHY USE air.libre?

- **Recommended for Freehand/Open air techniques (no foil Balayage, Highlights, Decoloration).**
- Lightening up to 5 shades, depending on hair thickness.
- Provides a soft and natural-looking with a highlighted effect.
- Dust-free formula.

ACTIVE INGREDIENTS:

- **COLLAGEN** - Provides elasticity and flexibility.
- **BLEND OF PROTECTIVE OILS:** Macadamia, Peach, Hazelnut, Chia, Kukui, Baobab, Moringa, Batana and Argan Oils – Rebuilds, adds shine, hydrates and has anti-frizz and antioxydant properties.

DIRECTIONS:

FREEHAND/OPEN AIR TECHNIQUES (NO FOIL, BALAYAGE AND FREEHAND HIGHLIGHTS).

Waiting time and **Creme Developer** volume (10, 20, 30 or 40 vol.) choice should be diagnosed by the professional hairstylist, taking desired final results into consideration. Mix one part of **TRUSS Air Libre** to one part of creme developer in a non-metalic bowl, until you achieve a creamy and homogenous texture. Using a brush, apply to dry clean hair. Always wear gloves.

LIGHTENING/BLEACHING/DECOLORATION. HIGHLIGHTS AND CAP HIGHLIGHTS.

* Lightening effects will be less intense on colored hair.

Add (one part) of **TRUSS 8 X Powder** to the **TRUSS Air Libre** mixture recommended above and apply **TRUSS K Recovery** directly on the damaged sections on hair.

COPACABANA SHINE CONTOUR

- 1- First section the hair from ear to ear. Then divide hair into two triangle shaped sections at the top of the head above the parietal ridge. With the first top triangle, section pointing towards the face and second top triangle pointing towards the back ending just below the crown. Next section the side profiles in half with a diagonal back section starting from the top front triangle to just above the ear. Lastly divide the back profile in half vertically and subdivide these in half horizontally creating four more triangles.
- 2- Apply a mixture of **TRUSS Air Libre** with **30 vol. Creme Developer** to the triangle sections. Apply diagonally on each side of the triangles while preserving the center of each triangle.
- 3- Continue to drop down each triangle and continue the same application throughout the hair. Hair strands should be lightened until it reaches an approximate level of **7.3** (medium golden blond).
- 4- Wash hair with **TRUSS Bidimensional Shampoo**. Rinse.
- 5- To rebuild the strands and level out the ph apply **TRUSS Hydra Color** ampoule for **5 minutes**. Rinse.
- 6- Apply **Semi Permanent Color 7.7** (violet) with **10 vol. Creme Developer** to tone the hair for **10 minutes**. Rinse.
- 7- Apply **TRUSS Intensive Nutrition** for **5 minutes**. Rinse.
- 8- Spray **TRUSS Amino** through the length of the hair and finish with a styling blowout.
