

INSTRUCTIONS FOR USE

Prior to adding **b3 Brazilian Bond Builder** to any of your color formulations, please locate your service below for manufacturer instructions.

HIGHLIGHTS AND OMBRE/SOMBRE/COLOR MELT

1. Mix 30 ml (1 oz.) scoop of bleach with developer using a 1:2 ratio. See developer guide.
2. Add 7 ml (1/4 oz.) of b3 Brazilian Bond Builder and mix in with your lightener.
3. Proceed with application of lightener and process as normal.

NOTE: If mixture is too thin after adding b³ Brazilian Bond Builder add more bleach powder until it reaches your preferred consistency. **Do not** add more developer.

BALAYAGE

1. Mix 30 ml (1 oz.) scoop of bleach with developer using a 1:2 ratio. See developer guide.
2. Measure 3.5 ml (1/8 oz.) of b3 Brazilian Bond Builder and mix in to your lightener. Even if you mix 1 oz. of developer to bleach you will only add 3.5 ml (1/8 oz.) of b3 Brazilian Bond Builder.
3. Proceed with application of lightener and process as normal.

NOTE: If mixture is too thin after adding b³ Brazilian Bond Builder add more bleach powder until it reaches your preferred consistency. **Do not** add more developer.

HIGH LIFT AND ON SCALP BLEACH

1. Mix 30 ml (1 oz.) scoop of bleach with developer using a 1:2 ratio. See developer guide.
2. Add 7 ml (1/4 oz.) of b3 Brazilian Bond Builder and mix in with your lightener.
3. Proceed with application of lightener and process as normal.

NOTE: If mixture is too thin after adding b³ Brazilian Bond Builder add more bleach powder until it reaches your preferred consistency. **Do not** add more developer.

SINGLE PROCESS COLOR

1. Mix color and developer as usual. **Do not** bump up developer.
2. Measure 3.5 ml (1/8 oz.) of b3 Brazilian Bond Builder and mix in with your color.
3. Proceed with application and process as normal.

Keep out of reach of children. Avoid contact with eyes. This formula is not tested on animals.

BRAZILIAN
BONDBUILD³R

DEVELOPER GUIDE

You **must** bump up your developer 1 level when using b³ with lightening services.

USE:

20 vol for 10 vol results
30 vol for 20 vol results
40 vol for 30 vol results

**Do not use 10 vol developer with b³*

MEASURING GUIDE

1 b3 ampoule = 7 ml (1/4 oz.)

IMPORTANT:

WHEN USING BLEACH POWDER, PAY ATTENTION TO SCOOP SIZE. SOME POWDERS CONTAIN 1/2 OZ SCOOPS.

Use 7 ml (1/4 oz.) b3 to 14 ml (1/2 oz.) scoops.
