KEY INGREDIENTS

- ✓ **CERAMIDES:** recreate the natural lipid structure by promoting the integrity of the intercellular cement and giving body to the hair.
- ✓ **ELASTIN:** restores elasticity of the hair by strengthening it from the inside.
- ✓ **HYALURONIC ACID:** plumps the hair with an anti-aging effect, seals the cuticles and protects it from the aggressions of atmospheric agents

COLOR GLAZE

Conditioning Illuminating Color Gel

Natural and fantasy colours fully respecting the natural base and hair fiber for conditioning and illuminating results.

How to use

COLOURS:

Mixing ratio:

1:1 with specific activator (E.g. 50g of colour + 50g activator). We recommend using the specific applicator bottle.

2. Application:

- On wet hair, to neutralize, enhance or revive shades. Application time from 5 to 20 minutes depending on hair porosity.

- On dry hair: to neutralize unwanted tones or intensify the desired shade. Application time 20 minutes.

3. Rinsing:

Having reached the application time, rinse and or wash with shampoo and Bacò post color conditioner.

BENEFIT

- ✓ Tone bleached or highlighted Hair;
- ✓ Revive and add tone or reflex to cosmetic or natural colour;
- ✓ Light coverage for first grey hair
- ✓ Respect natural colour without altering it;
- ✓ Restore the natural pH of the hair;
- ✓ Smooth hair by sealing the cuticles.
