AGE RENEW
Elixir of youth

EVERY WOMAN'S DREAM?

To have beautiful, shiny, healthy hair, but with age and the stress caused by chemical treatments, hair can become weak, dull, and faded.

NO INHIBITION AGE RENEW is an innovative system that gives hair the elements it needs to delay the aging process and visibly rejuvenate the hair.

The combination of innovative state-of-the-art ingredients, combined with organic and natural ingredients, has an immediate “lifting” and “filling” effect, protecting and strengthening the hair, restoring the hair’s health, luster, and vitality.

AGE RENEW
Elixir of youth

ELIXIR OF YOUTH

NO INHIBITION AGE RENEW system revitalizes and restores the hair's natural beauty, leaving it soft, vibrant, and radiant.

The combination of organic elements and scientifically proven ingredients create the ideal formula to combat the stresses caused by pollution, UV rays, and the aging process.

Now hair can have the health and vitality to shine with the beauty that every woman dreams of.

NO INHIBITION

AGE RENEW

“ your hair, visibly younger ”

NO INHIBITION

The ingredients contained in
AGE RENEW **hair caresystem**

- Strengthen and nourish the hair for maximum shine
- Maintain the moisture balance of the scalp and hair;
- Improve the hair's body;
- Protect hair color, whether natural or cosmetic;
- Decrease the porosity of the hair;
- Protect the hair from pollution and UV rays.

AGE RENEW *hair care system* by NO INHIBITION

contains

HYALURONIC ACID

combined with hydrolyzed rice proteins, this potent antioxidant has an anti-aging effect, improving the hair's appearance for increased luster, vibrant color, and manageability.

MELITANE®

works on the hair, improving and prolonging hair color and protecting hair from atmospheric agents and the aging process.

ORGANIC ROOIBOS

a strong natural antioxidant that helps to protect and prolong hair color.

HYALURONIC ACID

Used in cosmetic surgery as an alternative to botox to rejuvenate the skin and delay the aging process, it is one of the fundamental components of connective human tissue. Contrary to botox, which is a toxic substance (botulinum toxin), that temporarily “paralyzes” human tissue, hyaluronic acid is a natural rejuvenating and filling active ingredient, and in the case of **NO INHIBITION** AGE RENEW, is of plant origin. The concentration of hyaluronic acid within body tissue tends to decrease with age. If used topically, it gives skin elasticity and resistance in order to maintain its beauty, tone, and vitality over time.

The presence of hyaluronic acid within AGE RENEW by **NO INHIBITION** helps to improve the appearance of the hair, and its constant use helps to maintain its natural luster, shine, and manageability over time. Hyaluronic acid also improves the elasticity and resistance of the scalp, thus giving more strength and resistance to the hair.

FEATURES

- Combats the aging of skin and hair
- Gives vitality, shine, and manageability to the hair
- Gives elasticity and resistance to the scalp
- Helps to improve hair's appearance over time

MELITANE®

is an innovative peptide active ingredient (complex of amino acids) that helps to reverse the hair's aging process by working on melanocytes.

Melanocytes are present in the hair follicle and produce melanin, and are responsible for hair color.

Natural hair color is the result of 2 types of melanin pigments:

- **Phaeomelani is responsible for blond to red colors**
- **Eumelani is responsible for brown to black shades**

Over time, the hair begins to lose the vital elements needed to maintain its natural beauty. The result is dull, weak, and aged hair.

MELITANE® reverses the aging process by stimulating melanogenesis, the pigmentation process, increasing the percentage of moderated and highly pigmented cells in the hair bulb.

The result is hair that is visibly rejuvenated and vibrant. Hair color is improved and with regular use and is maintained and protected.

FEATURES

- Extends the life of natural and cosmetic hair color
- Has an anti-aging action on the scalp
- Helps to mask & delay the appearance of grey hairs
- Helps to protect the hair against the elements and delays aging.

ORGANIC ROOIBOS

Rooibos, or “red bush” in Afrikaans, is a native plant of South Africa, commonly used as a red herbal tea as it contains a high quantity of vitamins and minerals. It is very popular as it has many beneficial elements for the body, as well as having a rich, unique aroma and taste.

A strong antioxidant rich in flavonoids and aspalathin, it has a profound action on the hair, protecting hair color over time and preventing color-fading caused by UV rays and the elements. It also helps to give hair luster and to enhance natural or cosmetic hair color resulting in extraordinary beauty.

FEATURES

- Organic, cultivated in non-polluted areas
- Prolongs the duration of hair color
- Protects natural or cosmetic hair color
- Has a strong antioxidant action on the hair.

REVITALIZING SHAMPOO

Revitalizing shampoo

Perfect, gentle cleansing for hair in order to maintain its health and beauty over time.

The luxury active ingredients such as hyaluronic acid, melitane, and organic rooibos contained within the delicate sulfate-free, salt-free, and paraben-free formula cleanse the hair gently while fortifying the hair, imparting luster and vitality. Gives the hair body, manageability, and radiance.

To use: apply to damp hair, lather and rinse. Repeat if necessary.

Repeat if necessary.

Follow with AGE RENEW Revitalizing Mask to achieve the best results.

250 ml • 1000 ml

REVITALIZING MASK

Revitalizing Mask

Deep nourishment for hair, to improve its structure and beauty over time.

The luxury active ingredients such as hyaluronic acid, melitane and organic rooibos contained within the paraben-free formula condition and nourish the hair, imparting luster and vitality. Gives the hair volume, manageability, and radiance.

200 ml • 1000 ml

REVITALIZING TREATMENT

Revitalizing treatment for hair

An innovative, concentrated, and targeted professional treatment made with hyaluronic acid, combined with melitane and organic rooibos, that helps to counteract the signs of aging in hair, with an extraordinarily lustrous and rejuvenating result.

12 phials - 12x20ml

the appropriate dosing device + 2 spare tips

DD CREAM

Leave-in hair cream for all hair types

The perfect finish to the **NO INHIBITION AGE RENEW** haircare system to maintain its benefits over time with a simple and effective product.

Daily Defense leave-in hair cream, with hyaluronic acid and organic rooibus, helps to fight the signs of aging on the hair with an extraordinary, rejuvenating, lustrous result. Its luxurious formula helps to protect the hair, preventing split ends and controlling frizz for a long-lasting, healthy, radiant result. Gives manageability, body, and shine.

Use: apply to damp or dry hair; distribute and proceed with the desired style.

30 ml

AGE RENEW ADDITIVE

For an increased, long-lasting effect on the hair,
use the **AGE RENEW ADDITIVE**.

AGE RENEW ADDITIVE, the hyaluronic acid mixing base, is a luxurious blend of osmotic water, hyaluronic acid and rice proteins that enhances the beneficial and positive effects of **AGE RENEW REVITALIZING TREATMENT** on the hair.

Osmotic water is water that has been subject to “reverse osmosis”, a process that purifies water from the various impurities that it may contain. This technique uses a special semipermeable membrane that allows water to pass through, leaving impurities behind. Osmotic water is therefore more pure when compared to common water; thus its effect on the hair, when combined with hyaluronic acid and rice proteins, is increased, making the treatment even deeper and more effective.

500 ml

AGE RENEW hair caresystem

USE with additive

MIXTURE PREPARATION • FOR SHORT AND MEDIUM LENGTH THICK HAIR

1. remove the safety seal at the top of the ampoule, perforate its rubber with the special syringe for cosmetic use, turn the ampoule upside-down keeping its closure downwards, take 5 ml of AGE RENEW **REVITALIZING TREATMENT**, and dispense the content of the syringe in the appropriate bowl.
2. Pour **15 ml** of AGE RENEW **ADDITIVE** into the measuring cup, then pour the contents in the bowl.
3. Mix these two solutions with the applicator brush in order to obtain a homogenous cream that will develop a slight warmth

MIXTURE PREPARATION • FOR LONG, THICK AND POROUS HAIR

1. remove the safety seal at the top of the ampoule, perforate its rubber with the special syringe for cosmetic use, turn the ampoule upside-down keeping its closure downwards, take 10 ml of AGE RENEW **REVITALIZING TREATMENT**, dispense the contents of the syringe in the appropriate bowl.
2. Pour **30 ml** of AGE RENEW **ADDITIVE** in the measuring cup, then pour the contents in the bowl.
3. Mix these two solutions with the applicator brush in order to obtain a homogenous cream that will develop a slight warmth.

APPLICATION

Wash the hair with Age Renew Revitalizing Shampoo, if hair very dirty or has styling product residue, use Smoothing Preparing Shampoo.
Apply Age Renew Revitalizing Treatment on damp hair. Divide the hair in sections.
Apply on locks about 5 cm broad. Massage. Tie hair up. Leave in 10-12 minutes. Rinse.
In case of chemically treated hair, use heat with a plastic cup and reduce the processing time to 8 minutes.

* The syringe is a cosmetic and precision dosing device with a flat cannula: external use, do not inject.
